John C. Ebeagu — Fullstack Developer CV

Email: Ebeagujohn5@gmail.com · **Phone:** 08167608522 · **Location:** Kano, Nigeria

LinkedIn: linkedin.com/in/john-ebeagu-2a63481a3 · **Portfolio:** vtu-web-app.vercel.app/app

---

Professional Summary

Fullstack Developer with hands-on experience building and deploying complete web applications from database to user interface. Certified with Distinction from HiiT PLC's Fullstack Web Development Programme. Core strength is backend development with Python and Django, complemented by solid frontend skills in HTML, CSS, JavaScript, and practical React collaboration. Brings a unique analytical edge from a BA in Philosophy and published AI ethics research — combining technical depth with clear, purposeful thinking.

Technical Skills

Backend: Python, Django, Django REST Framework, SQLite, SQL, REST API design

Frontend: HTML5, CSS3, JavaScript, React (collaboration & integration)

Database: Relational schema design, Django ORM, raw SQL queries, migrations

API: RESTful API development, JSON, Postman, frontend-backend integration

Tools: Git, GitHub, VS Code, Vercel

Data: Microsoft Excel, Google Sheets, Power BI

Projects

NOHASub — VTU & Digital Utility Services Platform *(2026)*

A live fullstack fintech application allowing users to purchase airtime, data bundles, and pay utility bills online. Built collaboratively with a frontend partner.

- **Backend (my role):** Built the entire server-side using Django and Django REST Framework
- Designed and implemented RESTful APIs consumed by a React frontend
- Architected the database schema, managed migrations, and enforced data integrity

- Implemented user authentication, session management, and secure access control
- **Frontend (collaboration):** Worked closely with React frontend developer to align API contracts and data flow
- Deployed full application to production on Vercel

Live: vtu-web-app.vercel.app/app · **Stack:** Python, Django, DRF, SQLite, React

---

My Portfolio Website *(2026)*

- Designed and built a personal portfolio using Django, HTML, and CSS
- Configured static file handling, URL routing, and template rendering in Django
- Deployed and made live as a functional multi-page web application

Stack: Python, Django, HTML, CSS

E-Voting: Secure Electronic Voting Platform *(2026)*

- Built a complete voting system with Django backend and HTML/CSS frontend
- Implemented role-based access control, vote integrity, and user authentication
- Managed full database lifecycle from schema to deployment

Stack: Python, Django, HTML, CSS, SQLite

User Registration System with SQLite *(2026)*

- Built a fullstack registration system with persistent SQLite database storage
- Implemented duplicate-check logic and clean user-facing output

Stack: Python, SQLite3

Education

Fullstack Web Development — HiiT PLC, Kano *(Distinction, September 2026)*

Intensive programme covering: Python, Django, Django REST Framework, SQLite, HTML5, CSS3, JavaScript, React, and database management.

Bachelor of Arts, Philosophy — Nnamdi Azikiwe University, Awka *(September 2025)*

CGPA: 4.46 / 5.0 · Focus: AI Ethics, Logic, Professional Ethics, Philosophy of Religion
